Capture Village of Fleury North of Verdun Yesterday

GERMANS CLAIM IT WAS RETAKEN TODAY

And States Situation Is Now Unchanged

PRISONERS ARE CAPTURED

War Office in Paris Believes French Have Assumed the Initiative in Operations Around Great Fort Which Will Not Be Relinquished—Desperate Battle Is Fought

(Associated Press Telegram)
Berlin, Aug. 4, via London, 5.05 p. m.—The village of Fleury, north of Verdun was regained by the Germans this morning, it was officially announced today by the German army headquarters.

The situation at Fleury and its vicinity, the statement adds, now is the same as it was before the French attack.

(Associated Press Telegram)
Paris, Aug. 4.—Attacking simultaneously from the northwest and from the southwest, French troops yesterday stormed the village of Fleury, three miles north of Verdun, and captured several hundred Germans. In the evening, however, the Germans launched a furious counter-attack and after several violent attempts succeeded in getting a footing in the southern part of the village. The French today continue to hold the northern section of the place and heavy fighting still is in progress.

Verdun is again in the center of the war stage. The capture by the French of the village of Fleury which had been held by the Germans for more than a month, has caused great elation in France. It is the first fruit of the French slow and methodical offensive begun three days ago and seems, in the opinion of French military observers, to mark an epoch in the great movement.

The Germans appear to be less and less capable of operating on their old overwhelming scale and the initiative, military men here think, is about to pass to the French for good. While the German artillery continues to be as powerful and as well supplied as even, the Germans no longer are able to gather the masses of troops necessary to reap the benefit of artillery preparation.

It is twenty days since the Germans made their last big attack on the right bank of the Meuse by which they obtained small results at a heavy cost. On the left bank of the Meuse nothing beyond local actions have been attempted by the invaders for a week.

French bomb throwers for a fortnight past, in anticipation of the present offensive, had been creeping forward by the Vignes ravine, west of Froide Terre, with the object of getting near Thiaumont woods by working around Hill No. 305.

The bombers first reached the Brea Fleury road. They then separated into two parties, one going toward Vacherauville and the other toward Hill No. 305.

Last week the first party stormed a redoubt west of Thiaumont and after a stiff fight went beyond that the little wood of Vacherauville.

The whole section from Vacherauville to the approaches of Souville thus were in the hands of the French and the higher command judged the time ripe to attack from all sides at once.

Attacked from the northwest and the southeast the Germans in Fleury offered desperate resistance but the French bayonets finally prevailed. Some Germans managed to escape to the Vaux Le Caplre wood but a majority was taken prisoner.

Three days offensive regained all the ground that the Germans had taken several weeks to conquer. They took all the positions for a depth of about a mile from the slopes of the Souville fort to the approaches of Hill 320 as well as in the woods east of Vacherauville and in the Vignes ravine which borders to the west of the Vaux Le Caplre wood. The French also installed themselves in positions southwest, south and southeast of the famous Thiaumont woods. The French official statement issued by the war department, announcing the capture of Fleury by the French troops and recording other operations of day along the western front said:

"On the right bank of the Meuse our infantry, continuing their offensive action on the Thiaumont front, captured during the day by a series of successive attacks all the trenches comprising between those two points as far as a point (Continued on Page 13, Col. 4.)

Lansing Signs Treaty for Purchase of Danish Islands; Will Ask Senate to Ratify It

(Associated Press Telegram)
Washington, Aug. 4.—Acting Secretary Polk announced today that the treaty by which the United States is to purchase the Danish West Indies from Denmark for \$25,000,000 was signed at New York this morning by Secretary Lansing and Minister Constantin Brun.

The treaty provides for the transfer to the United States of three islands, St. Thomas, St. Croix and St.

John, which have been the subject of negotiation between the United States and Denmark for many years. It is understood that the administration will ask for ratification by the senate before the end of the present session, and while there may be some objection to the price, no really serious opposition is expected.

Secretary Lansing, who has been spending his vacation at Watertown, N. Y., went to New York to meet Minister Brun.

GUARDSMEN

DRILLED TODAY IN STICKY MUD AS RESULT OF EARLY MORNING RAIN.

Ohio's Soldiers Still Believe They Will Get to See Duty on the Rio Grande.

(Associated Press Telegram)
Camp Willis, Columbus, August 4

—The Ohio national guard troops drilled today in a sticky, slippery mud following a rain which soaked the camp early this morning. The men welcomed the relief from the heat, however, and did not object to the extra shoe shining occasioned by the mud.

On account of the condition of the roads, Col. B. L. Bargar, of the 4th infantry, ordered a postponement of the hike which had been planned for his regiment today.

No word was received by Major R. W. Melrus or any other of the camp officers today to indicate when the Ohio troops would be sent away from Camp Willis.

With the softening of the ground following the two rains of this week the officers are planning to give the men some training in trench digging.

Guardsmen took renewed interest today in "toughening hikes" recently inaugurated at the camp. In view of the expression of Acting Adjutant General B. W. Hough that there was a probability that the troops would shortly be moved to the border. Officers expressed the opinion today that when the guard does reach Texas soil, it will be among the best conditioned troops sent there by any state, and able to enter service without any of the preliminary "border schooling" that has been found necessary to condition other guards, fresh from more sedentary life, for the rigors of the hot climate.

The heat wave has furnished a condition equal to that which will be encountered at the banks of the Rio Grande, and the long hikes which have been judiciously ordered for the troops are fitting them for endurance under service conditions.

Units of the guard will not be depleted immediately by the operation of the order to muster out all men whose enlistments expire within 30 days. Interpretation of the order was announced yesterday by the officers to the effect that the men will not be released and will be required to serve out their time until the day definite orders come to move.

Rifle practice has been added to the routine of the camp and the men have an opportunity now to fire the guns they have been carrying for a month.

Interstate Commerce Commission Says State Or City May Establish Limits Within Which Explosives May Be Handled—Fire Burned Two Hours Before Explosion Came

(Associated Press Telegram)
Jersey City, N. J., August 4.—The explosion of munitions on Black Tom Island last Sunday morning which killed at least four persons and did approximately \$20,000,000 damage "was caused by some persons with the object of doing just what was accomplished," according to Theodore B. Johnson, one of the four men who were arraigned today charged with manslaughter in connection with the blast. The hearing was deferred until August 18.

Mr. Johnson, president of the Johnson Lighterage and Towing Co. said he would produce one of his employees who would swear that when he first saw the fire, it was in a box car on Black Tom Island and did not originate in one of the Johnson company's barges, as charged.

LAW NOT VIOLATED.

(Associated Press Telegram)
Washington, August 4.—A statement on the recent explosion on Black Tom Island off New York, given out at the White House today shows that the interstate commerce commission believes no law or regulation of the commission governing the packing and transportation of explosives was violated but that a state or municipality may have the right to prescribe limits within which explosives may be handled.

A letter from Secretary Taft to Frank A. Hague, commissioner of public safety of Jersey City included the report from the interstate commerce commission making plain its position.

"Our investigation thus far discloses no evidence that the law nor the regulations of the commission governing the packing and safe transportation of explosives were violated," says the report. "Furthermore, from the best information obtainable, the explosion was caused by fire on the docks before the first explosion occurred."

These meetings were to enable the leaders to decide upon their course of action if the representatives of the railroads again refuse their demand for an eight-hour day and other changes. The labor leaders declined to discuss the appeal to President Wilson to prevent the threatened national railroad strike. It lies in their power by virtue of the vote now being counted, to call a strike if the railroads do not accede to their demands.

Two Thousand Car Men Oppose Strike and Ask Mayor Mitchell for Police Protection if Strike is Called—Gompers Declares Men Should Share In the Prosperity Wave

(Associated Press Telegram)
New York, Aug. 4.—The ultimatum of the street car unions heads calling for an answer before 3 o'clock today to their demands for recognition of the union has been met by an offer by the street railway heads to meet at 4 o'clock tomorrow afternoon the committee of employees which presented the demands.

(Associated Press Telegram)
New York, Aug. 4.—Whether the 1,500,000 persons who daily travel on the surface cars in the boroughs of Manhattan and Queens are to be inconvenienced by a strike of 6,000 motormen and conductors of the New York railways company and the New York and Queens County Railroad company will be known this afternoon or tonight. The time limit set by the leaders of the street railway men's union within which the officials of these two companies are required to answer to demands for recognition of the union and increased pay, expires at 3 o'clock this afternoon. There is no indication of any intention on the part of any of the companies to grant the demands.

It is reported that 4,000 strike-breakers are ready to hurry to New York from other cities to take the place of strikers.

No demands have as yet been formulated by employees of the elevated or subway lines, but it is reported that they will follow in due course. Labor leaders are said to be organizing the drivers and conductors of the Fifth Avenue omnibus. Union leaders said when the strike vote to be taken tonight was finished they planned to put the strike into effect probably an hour after midnight.

Samuel Gompers, president of the American Federation of Labor arrived today to take a hand in the situation. He went into conference with W. D. Mahon, president of the Car men's Association. Mr. Gompers made it clear that he was supporting the union.

"I hope the railroad people will have the sufficient good sense not to compel the boys to show their color as they are now prepared to do," he said. "There is a wave of prosperity sweeping over the country and it is no more than right that they should share in it."

A delegation of employees called on President Shontz and later called on the mayor and informed him that 2,243 of their fellow workers had signed a paper saying that they were not in favor of the strike. They asked the mayor for police protection in the event of the strike and this was promised.

STEAMER SINKS U-BOAT WHICH ATTACKED HER

Baltimore, Aug. 4.—Captain David Thomson, master of the British steamship Strathness, which arrived here today from Mediterranean ports, told of an engagement which he declared his vessel had with a German submarine July 15, in which the submersible was sunk.

Two gunners from the British navy, who were in charge of a six-pound gun mounted on the after-deck of the Strathness for defense purposes sank the submarine, according to Captain Thomson, when a ball struck it amidships, causing an explosion. He said the underwater boat dived suddenly and was not seen again.

While the Strathness was struck several times, once, according to Captain Thomson, by a torpedo, no great damage was done and the freighter escaped with several dent-plated and portions of her superstructure demolished.

The submarine attacked the Strathness in the Mediterranean, near Algiers, on July 15, the captain said. "The Strathness was first shaken by a ball striking her amidships and this was the first intimation of the attack, according to Captain Thomson. The running fight that followed lasted an hour.

Granville

[Special to The Advocate.] Granville, August 4.—During the hot dry weather of the past weeks, the farmers have had unprecedented facilities for harvesting their heavy crops of hay and grain. This is the season when the voice of the threshing machine is heard in the land, and when the "threshers" live upon the fat of the land. Nothing is too good for these busy men in the estimation of the good house wives and no trouble is spared in preparing all sorts of delicacies as well as substantial for the table three times a day. In the meantime the corn needs rain which has been denied for some time.

An early meeting of the board of education will be called to act upon the resignation of Miss Flora Hoover, who desires to enter normal school work. Miss Grace Chamberlain the popular and efficient librarian of the Granville public library left yesterday for Denver, Colo., where she expects to spend a month. The journey will be broken by a short visit with friends in Omaha, Neb.

Mr. and Mrs. William Crawford of Pittsburg are guests of their parents, Mr. and Mrs. Crawford in South Mulberry street.

Mrs. Lillie Probst leaves today for Hillsboro, for a month's visit with her son, Mr. Arthur Probst, Dunson 15, who is located in that place.

Mr. and Mrs. P. P. Yingling are enjoying a visit from their daughter, Mrs. Cecil Ordman, of Los Angeles, Cal.

Quite a delegation of Granville people visited the big tent at Hudson avenue last evening and were delighted with the program in the "House" as presented by William Owen and company on the Chautauqua program. Tonight the University Boys in the program of Italian music, followed by the popular scientific lecture and demonstration by Montravelle Wood, will draw a big house. The ultra-violet ray and the monorail car, with its steady gyrations will be features of this demonstration. Evening performances begin at 7:30.

TO HUNT OVER BIG PRESERVE IN W. VIRGINIA

H. M. Lockridge, of Huntersville, W. Va., is spending several days at Buckeye Lake Park as the guest of Emmet Defenbach, lessee of the park. Mr. Lockridge is manager of the Allegheny and Cheat Mountain clubs of Belington, W. Va., which own hunting preserves of 50,000 acres, and of which Mr. Defenbach is a member.

Mr. Defenbach is planning for a ten days hunting trip on the preserves in October and will drive through with several friends in his big Packard touring car. He proposes to return with a number of trophies, as moose, deer and bear abound in that region. In addition there is all kind of wild water fowl and the fishing grounds are said to be a paradise for lovers of that sport.

LIGHTS ON POLICE AUTO EQUIPPED WITH NEW LENSES

City officials are very much enthused this morning over a new pair of automobile lenses which have been presented to the police department by Newton & Brinker, Columbus. The new lenses which are remarkable for their power and brilliance arrived yesterday and were placed in the headlights on the police auto. They are called Legatite Lenses, and are deserving of the name, for arrangement of beveled cross bars in the glass throws the light on the road without impairing its brilliance. In this way the rays are not thrown in the eyes of drivers of approaching vehicles, and danger of accident after night is lessened. The lenses are highly endorsed all over the country by autoists and Chief of Police James S. Sheridan is very much gratified by their efficiency.

Last night the police, accompanied by the chief and several autoists, took the police auto outside the city limits to try the lenses on the dark roads and the results exceeded their expectations.

Chief Sheridan extends an invitation to the members of the Newark Auto Club to come around to the station this evening when the lenses will be given a demonstration for the benefit of the club members.

FOR COUNTY AUDITOR

FRANK F. ORR.

Candidate for County Auditor of Licking county on the Democratic ticket.

He is a resident of Bowling Green township and has been superintendent of the public schools of Brownsburg, Jackson, Blomer, Croton, and for awhile was a teacher of mathematics in the Newark High school. For six years he served as member of the Board of County School Examiners. He believes that "a public office is a public trust," and should be administered with equal rights to all and special privileges to none.

He favors a living wage to the laboring man, with one day of rest in seven, safety appliances, compensation for accidents and such provisions for health and comfort as should be accorded to those who create the wealth of the race.

Should he be nominated and elected to this responsible position the people of the county will be treated with the utmost courtesy and no pains will be spared to conduct the affairs of the office in a thorough and efficient manner.

KIDDIES WILL ENJOY A TREAT OF WATERMELON

Names are just rolling in for the kiddies picnic on Thursday, August 17. Chairman Dr. J. T. Lewis is one of the busiest men in the city arranging for the big event. He has had dozens of calls from little youngsters who want to join the throng of merry makers on that day.

Yesterday a sweet-faced little girl called at the doctor's office in Third street and said that she and her little brother had never had an auto ride in their life and her brother had been sick nearly all summer and they wanted to go to the lake. She untied a corner of her handkerchief and handed Dr. Lewis 50 cents in pennies and nickels and said: "That's what we have saved up and we want to have a picnic." Chairman Lewis had to turn away his head for a minute or two before he could hand it back and assure his little caller that the committee had orders not to accept any contributions from the children.

Chairman Lewis added another treat for the youngsters. He decided last evening that they should have watermelon, a big, generous slice, I believe, some one will donate them said the chairman. If they do not believe me those kids will get a watermelon treat with their dinner anyway.

J. C. (Johnny) Brown, the East Newark grocer phoned the chairman that he had special pickles for kids and wanted to donate several hundred for the picnic. At the same time he remarked that he would try and think of something additional that he could send.

Sugar, lemons and small cakes will be acceptable. Phone Chairman Lewis and he will take your donation. You'll feel better after making one. Try it and see. Lots of those little tots who will be taken in autos to Buckeye Lake Park have never seen a sheep. They have never seen a lake and none of them have ever had an auto ride. Be a Big Brother and get in with the kiddies. You'll have just as much fun as they do.

Members of the committee visited the lake yesterday, selected the picnic grounds and were ably assisted by Col. Wm. C. Wells in making all arrangements for the day.

Messrs. Defenbach and Fisher, park managers, have arranged to give the youngsters a delightful boat ride around the lake. There will be other amusements for the kiddies too. In fact they will have the time of their young lives.

If you care to help or donate a car for the day just phone Dr. Lewis, M. J. Reese, Rev. Don D. Tullis or H. D. Hale, members of the committee.

COMLUMBUS BOYS SCATTER COIN AT BUCKEYE LAKE

Clarence McCammon, 16, and Herman Best, 14, of Columbus, were heroes at Buckeye Lake Wednesday, for they had money to burn, and were treating all their friends. Their unwonted generosity attracted the attention of a patrolman and the juvenile court at Columbus was informed. The investigation showed the dressing room of the Hartman theatre where Al G. Fields and company are rehearsing, had been ransacked, and money and valuables taken. A court official said one of the boys had confessed to the theft.

The boys have been eating 50 cent meals at the best hotels and had hired a motor boat, where only a few days before they had been going around to the lunch counter asking for sandwiches for two cents.

VETERAN COULDN'T RESIST HIS DESIRE TO MARCH ONCE MORE.

James K. Jennings, of this city marched for a few minutes in the preparedness parade in Cincinnati last June, though he is now 90 years old. His determination to march resulted in the following story in a Cincinnati paper:

Though he is long past the allotted span of life, James K. Jennings, 90, of Newark, wanted to march in the preparedness parade at Cincinnati last June and it took the efforts of all his relatives to prevent him from doing so. Especially was this true when he saw old comrades of the G. A. R. pass by.

Jennings, who is the grandfather of Mrs. Carrie Cruise, matron of the police detention home, is stopping at the home of his daughter, Mrs. Annie Moran, 510 West Eighth street. He declared his intention of marching in the parade. He said that he had marched under Grant and had gone with Sherman to the sea and was ready to show, by marching that he was for his country first, last and all the time. His family finally compromised with him by getting him a seat at Ninth and Race streets. He sat here viewing the parade very quietly and seemed satisfied until the G. A. R. approached. As the veterans filed by, Jennings became uneasy. Suddenly rising from his seat he declared that he was going to "join the boys." He recognized several of them as comrades in that famous march to the sea and he wanted to get into the thick of it again. It was all that those with him could do to keep him from stepping into the street. Finally one of his old comrades spied him and took him by the arm and said "Come on Jim." The old veteran of 90 years marched proudly under Old Glory again for a few blocks.—Cincinnati Times Star.

William Armstrong was enroute to Newark in his Ford Saturday evening, with a companion in his car, and just south in the turn of the road in front of Ralph Warner's garden his wheels skidded in the dust and the machine went into the ditch. The car was slightly damaged.—Ulster Herald.

ESTABLISHED IN 1920

A Campaign Fraud.

The Wyandotte building, the oldest skyscraper office-building in Columbus, has been selected to house the state offices outside the statehouse. The State Building Commission, one of the new commissions created by Governor Willis, has entered into agreement to purchase. By this act the Wyandotte building becomes the additional state Capitol, the most notorious of all monuments in the state, the legislature's memorial to the biggest campaign lie ever told and believed. In the campaign of 1914 a candidate printed and circulated millions of "Little Red Books," pointing out unnecessary offices and officials, and declaring a bankrupt treasury with a deficit of many millions. Now one of his additional commissions has arranged for an additional entire office building to be purchased to house these "unnecessary" offices, the purchase price being one year's interest on the "deficit" the candidate charged. The candidate was successful. His epitaph is written up on this headline authorized by the law he signed, selected by a commission he created, and all—to quote from the law itself—"upon and with the approval of the governor."

The purchase of the Wyandotte building is probably good business if it be for temporary purposes. Much repair to make it usable will be necessary, for it is far from modern. Somebody probably profited in the deal, but a reasonable commission is not to be questioned. The state office building proposition, however, is not solved. Only a campaign fraud is officially acknowledged.

The Farm Woman and the Rural Home.

To the experienced observer of politics, the appointment of congressional and legislative commissions of investigation has its farcical sides. These commissions frequently serve useful purposes in giving employment to worthy politicians (of one's own political party of course) who for reasons for which they were not to blame are temporarily out of a job. They hold long and tedious sessions, collect a lot of material that everyone knew before, and have it bound up in black covered books, which either gather dust in unvisited library basements, or go direct to the junk shop.

So the National Education Association at its recent convention may have provoked a smile by passing a resolution asking Congress to sanction a commission to investigate the subject named in the title of this article. But it is an interesting subject.

The farm woman is not as much of a problem as she was two decades ago. Then in the popular conception at least, she used to go crazy from loneliness. Now she studies the fashion papers, belongs to the grange.

A Real, Live-Wire.

(Altoona, Pa., Mirror.)
George H. Mosser, manager of the Chamber of Commerce, has tendered his resignation to become effective August 15. Mr. Mosser has been the executive officer of the Chamber of Commerce for the past three years. He took charge of the body after it had been reorganized on its present broad and comprehensive lines. The duties were not new to him. He had been similarly engaged before he came here. Consequently he was prepared to do effective work from the very first.

Mr. Mosser's activities in Altoona demonstrated that he is one of the ablest community business promoters and accelerators in the country. He helped to plan and personally directed some of the most important local campaigns for the improvement of trade conditions. He advertised our city and our citizens and gave Altoona a reputation the country over as a wide-awake and aggressive industrial and commercial center. In domestic affairs he was no less active and progressive in furthering plans for the benefit of the individual and the community as a whole.

Some people still imagine that the chief object for which a Chamber of Commerce exists is to bring new industries to a town. This is but one of the aims of an organization of this character. It has many others, not one of which was neglected by the retiring manager.

Only those who were intimately associated with Mr. Mosser in the affairs of the Chamber of Commerce know what a vast amount of work he has been doing for the people of this city, but all are now in some way sharing in the fruits of his splendid and successful service.

Newark, O., is getting a real, live wire. We can hope that his successor here will prove equally as capable and resourceful.

Personal Fortunes.

It is something of a national habit of ours to exaggerate what is already large enough for wonder. That is the case with personal fortunes. Almost invariably they prove smaller than the wild estimates made before the happy individual's death. That is the case with the estate of J. P. Morgan, with a gross valuation of \$78,140,024, and net of nearly \$30,000,000 less. Some of the sensational newspapers were in the habit of estimating Mr. Morgan's art collection alone at more than this.

Of the large fortune left in recent years, Anthony N. Brady's showed \$77,042,443. The estate of E. H. Harriman was appraised at something under \$77,000,000, and that of Russell Sage was valued at \$30,000,000 less than this. John Jacob Astor made a larger showing than any of these, with a gross estate of \$87,218,000.

In the case of Mr. Morgan there can be very little question that his securities, to say nothing of the art objects, have enhanced in value since his death three years ago. Bankers are always credited with more money than they have because it is their business to turn over to advantage other people's money as frequently as possible. Mr. Morgan spent lavishly upon objects of art, although not without discrimination, for he could afford to employ the best expert talent. Of the instances quoted, perhaps Russell Sage was the one person, next to Mr. Henry Green, who spent nothing on artistic superfluities. Sage, in fact, owed his wealth in a large measure to the wonderful way in which he alone had ready money when everybody else wanted it.

Patriotism in Canada.

(Brooklyn Eagle)
F. W. Baillie of Hamilton, Ont., as president of the Canadian Cartilage company, has returned to the British Treasury \$750,000 of profits made legitimately and properly out of the manufacture of armament for the British army. We may fairly assume that this is not mere individual generosity, that what was done was conceived in by the directors and stockholders of the company and that it is a shining example of Canadian patriotism. In a colony which, with 8,000,000 population, has sent 358,000 men to the front, nobody need be surprised at the feeling that prompts the sacrifice of the Cartilage company.

By way of contrast, our munitions makers in America are protesting bitterly against a special tax on their receipts to meet the immense demands of national defense preparedness, and that in spite of the fact that much of the money so raised will come to them in orders from Washington. The difference is apparent.

Yet cynicism may go a bit too far in its conclusions. We have not acted as a part of the British Empire. It is human nature to be stirred by actualities and not to be disturbed by prognostications. If we had a war it may be imagined that our captains of industry would show as much of patriotism as the soldiers sent to the front. In past wars they have never been deaf to the call of national pride and of national responsibility.

Whoa.
A Newark man bought a horse for his wife and he was particular to select nice, gentle, old one because she was not very expert at drivin. It was part of the pleasure of her new possession to drive her husband back and forth to his place of business and one day when she was exercising this gentle art the horse

turned and started over into the court house yard. She remonstrated with the beast somewhat disgustedly and her husband mildly observed, "But you pulled the rein on that side." "Well," she replied, "What if I did? He ought to have known I didn't want him to go in there."

Did You Know
That Mount Vernon, the home of George Washington, was built in 1743 by Washington's elder brother, Lawrence, who called it Mt. Vernon after Admiral Vernon under whom he had served in the British army? The library was designed by Washington himself but at present contains little of the original furniture. The body of Washington was removed from the old family vault in 1831 to the tomb situated a few hundred yards from the house near a wooded ravine. Mount Vernon which had been much enlarged by Washington, was bequeathed by him to Bushrod Washington upon whose death it came into the hands of his nephew, John A. Washington, who sold it in 1858 to the Ladies' Mt. Vernon association for \$200,000, of which \$39,494.55 was the contribution of Edward Everett. The association holds the place in trust as a place of public interest; and upon the dissolution of the association or its failure to perform the objects for which it was formed, Mt. Vernon will revert to the state of Virginia.

Wooden Shoes May Return.

(Portland Oregonian.)
What if all the poor of Europe should be driven to wearing wooden shoes—or clogs, as they are called in England? Leather is becoming so scarce that it is going up to famine prices and may soon become a luxury which only the rich can afford. The wooden shoe has been going out of use with the spread of prosperity downwards and with the great increase of factory-made shoes, but it may come into its own again if war wages should go down before war prices, as is too often the case.

The clog is a heavy, clumsy contrivance, held on the feet with a narrow strap of leather over the foot, and is usually worn over bare feet. It is most common in Lancashire, England, and in Holland. Many poor people wear clogs over their shoes to protect them from mud, and go clattering along the stone paved streets with much racket, dropping the clogs as an American woman drops her overshoes on entering a house. Some persons who never wear shoes on weekdays honor Sunday by wearing them to church, but keep them unsanitized with clogs, which are left in the porch when they enter.

Milady's Boudoir

Care of the Hair While Camping.
At some vacation resorts the care
of the hair is a problem unsolved.
There are no available shampoos
abiding in the woods that surround
the mountain camp and none inhabit
the haystacks of the country farm.

So the woman spending her vaca-
tion in a remote place should master
the art of shampooing her own hair.
And an art it is, although it can be
mastered easily with a little patience.
In the first place, you must have
all the required ingredients for a
good shampoo at hand, including a
suitable soap or shampoo mixture,
plenty of hot and cold water, a spray
for rinsing and plenty of suitable
towels for drying.

The towel used should be as free
from lint as possible and bath towel
ought never be used. If you have no
shower bath or spray—nothing but
a little spray, that may be used at-
tached to a faucet.

Some of these are made with a
brush attachment and this sort can
be used for a good friction bath as
well as for the shampoo. If there is
no available supply of hot water a
spirit lamp and kettle in your room
will supply the water.

With the women of dry, brittle
hair, shampooing is indeed a delicate
process. She must exercise the most
exquisite care or pay a heavy price
for her indiscretion. Ammonia,
washing soda, borax or patented
shampoos of whose ingredients he is
ignorant may crack her hair and de-
stroy what little life exists in the
roots.

but motion-picture film concerns.

Our Boys and Girls

There is an inborn daintiness
about little girls that makes them
take a good grooming naturally. Wo-
man love to fuss over themselves and
the characteristics begin to show in
very tender years. Observe wee
Gwendolyn powdering her bit of nose
with the maternal powder puff or
trying to pin up her curls in an imi-
tation of mamma's coiffure.

The small boy, on the other hand,
avoids good grooming as the plague.
Water—except for drinking and
swimming purposes is the bane of

his life. A wash cloth he abhors.
Soap is an unholy nuisance.

There is no use trying to teach
the little boy to be fastidious about
his person—if he is—before the age
of interest in girls. He will not be a
real boy, the sort his father wants to
have—but every boy can be taught
the importance of cleanliness—of
fresh clear skin, well brushed hair
and teeth and a critical sense of
what constitutes a clean collar.
These habits established in childhood
are even more important for the boy
than the girl, whose natural instincts
will probably teach her sooner or
later to make herself as dainty as
possible.

southeast of Thiamont work and in the vicinity of Hill 320.

The village of Fleury was attacked simultaneously on the north-west and on the southeast and was entirely occupied by our troops after a brilliant action. The number of prisoners taken in the course of this action and so far counted, exceed 650. This brings up to 1,750 the total number of unwounded prisoners taken by us on the right bank of the Meuse since August.

The official statement this afternoon admitting that the Germans have recaptured a portion of Fleury, tells of violent fighting in the Fleury region and adds:

"The Germans multiplied the number of counter-attacks upon this village, each of which was succeeded by an intense preparatory artillery fire. After several fruitless endeavors the Germans secured a footing in the southern part of Fleury where very spirited fighting is still going on. All efforts made to dislodge us from the position to the southeast of this village were checked by the resistance of our troops."

SERG'T. WILSON IS DETAILED TO TAKE DESERTER HERE

Sergeant Harold Wilson, son of Mr. and Mrs. Fred Wilson of West Locust street, was detailed yesterday from Camp Willis to come to Newark to arrest a deserter. When Sergeant Wilson arrived in the city the deserter thought the matter over and last night went quietly back to Columbus, rather than be placed under arrest. The man in question sloped last Monday, and it was thought that he was in Newark, as some time ago he took sudden leave of absence and returned to his home in this city without securing permission. As this is the second time the man has taken French leave, Sergeant Wilson anticipates that the man will be dealt with more severely for his last offense. Sergeant Wilson returned to Camp Willis this morning.

SCALP CUT WHEN BOY DIVES FROM BRIDGE OVER DAM

Dale Marple, aged 16, of Park avenue, when he dove from the railing of the bridge over the water works dam at 3:00 o'clock yesterday afternoon, came into contact with a jagged rock or a piece of glass in the bed of the river, and cut a one-inch gash in his forehead which necessitated the services of a physician. Marple dove below the west sluiceway, where the water in depth is not over the head of a man six feet tall. The distance from the railing of the bridge to the bed of the river is about 30 feet.

How Much Credit Have You?

An old proverb says, "A man hath as much credit as he hath money in his pocket." It was said before checking accounts came into existence, however.

You will have that much credit and no more, if you pay with cash as you go along. But if you want the merchants and business people to trust you in time of need, why not begin by letting them trust you now, then each month pay your bill by a check on the Franklin National Bank? In this way you will establish a real credit that will be useful in time of need. Don't wait until tomorrow. Come in and open your account TODAY, in the bank where checking accounts, large and small, are our specialty.

TONEY THROWN
INTO LAKE AS
BOAT UPSETS

Two Charley Tonies figured in an episode at the colored picnic at Buckeye Lake yesterday afternoon when Charles Toney, aged 67, forty-two years in the service of the B. and O. railroad, and for the last twelve years a porter at the local B. and O. station, narrowly escaped drowning. The other Charles Toney is the nephew of Charles Toney of this city, and is from Zanesville.

With some of the friends the Tonies had engaged a row boat earlier in the afternoon, and at 4 o'clock, in the middle of the lake, several members of the party went in swimming. When one party tried to get back into the boat he pulled Charles Toney of this city into the water. Toney was not dressed for swimming, and it was with some trouble that the members of the party succeeded in rescuing him.

NEWARK CITIZENS
PRAISE PIZAROMAMMOTH CROWDS ASSEMBLE NIGHTLY TO SEE
AND HEAR THIS MAN

Doctor's Office at Sherwood Hotel Crowded Daily With People From All Parts of City and Surrounding Towns

A little woman who lives at 24 Pataskala street, stated to her friends last night at Pizaro's Free show grounds on 5th and Canal streets, that she had obtained miraculous results from the use of Pizaro's preparations. I have had terrible pains in my back and stomach and tried many different kinds of remedies but nothing seemed to relieve me until I commenced using Pizaro's medicine. I received instant relief and all my pains vanished and I feel like a different woman. I have great confidence in Pizaro and his California Cactus Juice. I think his remedies are more than he claims for them. A neighbor of mine who had been deaf in one ear for 15 years was made to hear again by the use of one of Pizaro's preparations. I can verify both of these statements. Many more citizens were demonstrated upon last night. Mr. Wm. Davis stated that he was very much benefited after using Pizaro's remedy. Mr. Tom Tonnev, living at 133 12nd street, Pittsburgh, was relieved of his deafness and many others touch for the merits of this man and his peculiar remedies.

Pizaro's Love For Children.
Pizaro is a broadminded man and his talks are interesting, everlasting and instructive. He has already

ing at any fair in the country than to miss showing at Columbus. We expect competition this year as we never had before. As we are going after the prizes with a view of getting as many as we can.

The sheep breeders farm owned by S. Blamer & Son is located two miles outside of Johnstown. It comprises 125 acres. It has more than 200 registered sheep, which are valued at more than \$200,000.

The raid was made upon the complaint of some of the neighbors. The quintet was lodged in the city prison. Their cases will be heard tomorrow morning.

Four autoists from Pataskala who were seen at the city yesterday evening were arrested in Main street at 10:30 o'clock because the automobile they were driving was without lights. They were lodged in the city prison. The owner of the car being charged with operating a machine without lights. The other three were held for investigation. SALTS FINE FOR
ACHING KIDNEYS

We eat too much meat, which clogs kidneys, then Back hurts and Bladder bothers you.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent white-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Utica business men are behind a movement for a big excursion of the villagers to Cedar Point. The business houses will be closed all day August 24 and a special train over the B. & O. will leave the Utica station at 6 o'clock in the morning.

MR. WOOD'S LECTURE IS BIG FEATURE

SCIENTIST WILL DEMONSTRATE
WONDERFUL INVENTIONS
AT TONIGHT'S CHAUTAUQUA.

William Owens and Company Presented Well Known Drama to Large Crowd Last Night.

Program.
Tonight—Hawaiian Music, University Boys, 7:30 p. m., Popular Scientific Lecture and Demonstration by Montraville Wood.
Saturday morning—Lecture "Robert Browning and the Poetic Monologue" Mr. Pyre.
Saturday afternoon—Concert, Pallaria and his Band.
Saturday evening—Concert Pallaria and his band (entire change of program.)

The third evening of the Chautauqua was featured by the presentation of the "Servant in the House" by William Owens and company and attracted an unusually large audience. The enjoyment of the production was marred by the inability of many to hear the actors, who admirably presented a play, which proved

a dramatic success during the past two seasons.
William Owens as "Robert, the Drain Man" easily dominated the cast, and showed strength and ability in his character role. His was the only voice that carried perfectly to the entire audience. William Lindquist as Manson, a butler enacted the role in which the spiritual was predominant. The supporting company was well balanced.

In the afternoon Signor Giuseppe Bartolotta, an Italian tenor, gave a program delightfully arranged and gave it with an enthusiasm which brought his audience close to him. He sang selections from several of the well known operas, and such favored numbers as Tolstol's "Good-bye", Nevius "The Rosary" and several folk songs in his native tongue. He was effusive in gesticulation, and gave all his numbers in a bright and happy manner.

Mr. Walton Pyre, the morning hour lecturer, entertained during the afternoon lecture hour with a monologue showing types familiar to everyone. The first was a young man about to propose and his soliloquy, preceding the proposal. He then mimicked a French-Canadian, a Scotchman and our own Yankee. The entertainment concluded with a monologue sketch.

Tonight is promised one of the biggest programs of the Chautauqua when Montraville Wood, scientist and demonstration.

DISCONTINUE GAS FOR FACTORY USE IN ZANESVILLE

Zanesville, Aug. 4.—On October 31 the Ohio Fuel Supply Co. will discontinue furnishing natural gas for manufacturing purposes. This action was decided upon Thursday by unanimous vote of the directors of the company in session at Pittsburgh and was taken as a means of conserving the supply for domestic consumption.

This action will mean in the Zanesville district alone an estimated annual loss of \$500,000 to \$750,000 in the company's revenues and will entail some radical changes in the equipment of the plants now using natural gas, which will mean a considerable outlay and in some instances much inconvenience.
The cutting off of the supply of gas for factories will increase the amount available for domestic use by about two-thirds, it is thought.

"THE NEXT TIME YOU SEE US, WE WILL ALL BE BEAUTIFUL"

That is what one woman writes after she and some of her women friends had proven the merit of Usit, the wonderful pure nut-oil Egyptian skin food.

Usit does all that this grateful woman could claim for it. No wrinkles can stay where it is applied at night before retiring. Usit means smooth clear youthful complexions, in place of wrinkles and a faded old-looking face. It is food for the neglected, hungry, poorly nourished skin. It means lines are banished and plumpness restored. No other treatment is necessary.

If you are losing your youthful good looks, go today and get a bottle of Usit. Keep the beauty that means so much to you. Usit contains nothing that will cause hair growth and is positively guaranteed.

For 50 cents any first-class druggist will supply Usit. Always put up in opal bottles. Take nothing else. The most painful cases of sunburn are relieved instantly by Usit. For sale by T. J. Evans, Erman's Original Cut Rate Drug Store, and dealers everywhere.

who knows the location of Mr. McClelland's sword will notify the Advocate, this newspaper will be glad to send for the sword and will ship it to Mr. McClelland in McPherson, Kansas.

Unreserved approval of "The Little Girl Next Door," the moving picture, on the part of the Little Girl Next Door, was expressed by the Rev. M. P. Boynton last night in his sermon at the Woodlawn Baptist church. The picture was recently the object of a bitter attack by Ald. Robert M. Buck.

"There is no blunder of the human race more monumentally nonsensical than the foolish and cowardly silence in matters of sex," said Mr. Boynton. "It is almost altogether due to this darkness and reticence that the foul creatures known as panders and white slavers have flourished. If ever a social attitude were utterly discredited, it is this old fashioned false modesty that even now cries out against such an expose as that of 'The Little Girl Next Door.'"

Forty ministers, including Mr. Boynton, discussed the picture at a meeting on Thursday and decided to give it their approval if three cut-outs were made. These included two objectionable scenes and a final quotation from Lecky's "History of Morals."

This wonderful picture will have its showings at the Auditorium today and tomorrow with continuous displays from 1 p. m. until 11 at night. No children under 16 years of age will be admitted and the prices will be twenty-five cents for all seats. Mr. Fenberg is also pleased to announce that the reels he has of "The Little Girl Next Door," were prints received this a. m. from Chicago and are new.

"The Children in the House."

For Auditorium Sunday crowds Mr. Fenberg has a fine offering in the Triangle-Fine Arts play, "The Children in the House," which besides having the Triangle Kiddies as big features has some decided novelties in feminine adornment that are sure to please the ladies. It is also full of thrills, one thrill being the spectacle of an auto-load of bank robbers plunging, after a flying battle with police over a steep precipice 300 feet high.

Norma Talmadge is the star of "The Children in the House," and is supported by a cast which includes Jewel Carmen, Eugene Pallette and Wm. Hinckley.

Alhambra Tonight and Tomorrow.

Turkey-trotting with one hundred and fifty pounds of clothes is not conducive to personal comfort and enjoyment; nevertheless, Earle Foxe, playing the lead with Mae Murray in the new Lasky production for the Paramount Program, of "The Dream Girl," which will be seen at the Alhambra tonight and tomorrow, danced all one afternoon in a full suit of steel armor, and when the three property men finally assisted him out of his shell, he admitted that it was not his idea of a perfectly good time. The occasion was a fancy dress ball which will be shown in the production. Mr. Foxe borrowed the suit of mail from a museum.

TO DARKEN HAIR APPLY SAGE TEA

A few applications of Sage Tea and Sulphur brings back its Vigor, color, gloss and thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the sage tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

FINE PROGRAM FOR SUNDAY AT BUCKEYE LAKE

The managers of Buckeye Lake Park, the pleasure center of Ohio, are bound to please their patrons, no matter what the cost. Messrs. Emmet Deffenbach and Capt. Del Fisher announce a Sunday program that should attract thousands from this city and vicinity.

The famous Buckeye Band under the directorship of Prof. Fred Abbott will render a musical program Sunday afternoon and evening. It will consist of all the latest selections of popular and classical airs and will be well worth hearing. Col. Robert Doid, business manager of the organization states that the band has been practicing nightly and will have a surprise in store for park visitors.

Another organization, Newark's crack drill team of the Woodmen Lodge, will give two fancy drills on the park ground. This team has captured a number of prizes in various parts of the country and those who have never witnessed the members go through their intricate marches will have the opportunity Sunday. It will be well worth going to the park to see.

The B. and O. baseball team of this city will play the Columbus Wilkes. It is bound to be an exciting game and hundreds of rooters from both cities will be present to cheer their favorites on to victory.

Capt. Jack Bishop, one of the greatest attractions ever at the Park, will make two high dives from a 90 foot tower, one at 4 and the other at 8 o'clock p. m.

Joe Purcell has been engaged to sing with the park orchestra and this feature will be a treat. Purcell has a reputation of being one of the finest singers in the country and has a reputation extending from coast to coast.

The new bathing beach will be the mecca for hundreds Sunday.

Take one of the big lake boats, enjoy a delightful lake ride and at the same time get a dip in the lake. Fare for the round trip is only 15 cents.

If you want a day of real pleasure visit Buckeye Lake Park Sunday and you will find plenty of attractions and amusements.

Mooney Planned Reign of Terror In San Francisco

(Associated Press Telegram) San Francisco, August 4.—That Thomas J. Mooney, one of the men indicted for murder in connection with the preparedness parade bomb explosion on July 22, planned to inaugurate a reign of terror in San Francisco by impersonating "direct action reds" from other societies, was the declaration of District Attorney C. M. Fickert in making public today some of the correspondence discovered by the police in Mooney's desk.

Mooney kept carbon copies of his letters. One addressed to an executive officer named Akers, of the international organization of the Industrial Workers of the World, Chicago, said:

"I want to get in immediate touch with fifteen or twenty direct action reds—good, vigorous reds."

A letter to William Haywood, national secretary of the I. W. W. asked for "hot blooded men" to come to San Francisco to join various unions and foment troubles, to start mutinies against the heads of the unions they joined, and in every way possible to cause dissension.

"Let me pull my kind of stuff," this letter continued, "stuff that's never been attempted in San Francisco before, and I'll make labor in San Francisco recognize me as its leader."

Women Should Get This Habit as Well as Men

Don't eat bite of breakfast until you drink glass of hot water.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty foot of bowels do.

URGES BURNING OF GARBAGE TO STOP PARALYSIS

New York, Aug. 4.—The group of distinguished pathologists and bacteriologists summoned here from all over the country to investigate the infantile paralysis epidemic in the hope they may discover a specific for the disease, spent the early part of today in observing the work by the health department in diagnosing the cases and the method used in quarantining the homes of the patients.

The Staten Island Civic League has sent to the governor, the mayor and the health commissioner, a letter asserting that it is the prevalent opinion of scientists that the germ of infantile paralysis is carried by flies feeding upon filth. The committee asserts that "with nearly 1,000 babies stricken and hundreds dead, with a scourge beyond control," the city should immediately reverse its policy of handling the city garbage so as to obtain a profit from it and urge that the garbage be burned.

FALLS THREE FLOORS TO STONE WALK

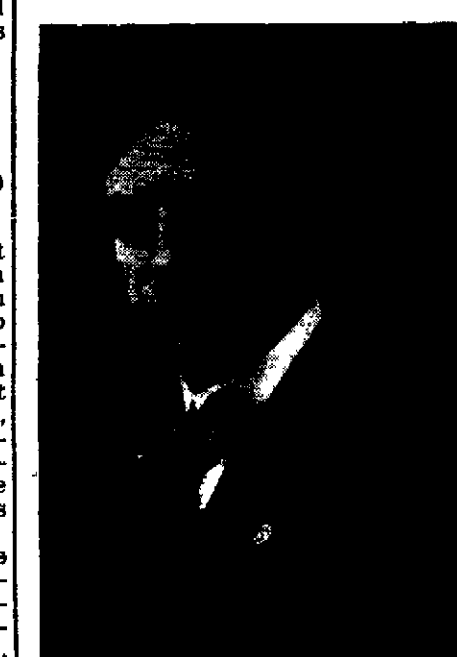

Portsmouth, O., Aug. 4.—Thomas Bush, 52, fell from the third story of an apartment house today, struck a stone flagging but was only dazed. He escaped with minor injuries.

Discolored or Spotty Skin Easily Peeled Off

The freckling, discoloring or roughening to which most skins are subject at this season, may readily be gotten rid of. Merciolized wax, spread lightly over the face before retiring and removed in the morning with soap and water, completely peels off the discolored skin. Get an ounce of the wax at any druggist's. There's no more effective way of banishing tan freckles or other cutaneous defects. Little skin particles come off each day, so the process itself doesn't even temporarily mar the complexion, and one soon acquires a brand new, spotless, girlishly beautiful face.

Wrinkles caused by weather, worry or illness, are best treated by a simple solution of powdered salicylic acid, one ounce dissolved in one-half pint witch hazel. Bathing the face in this produces a truly marvelous transformation.

PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and
How She was Cured.

Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sanative Wash I am fully cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to restore woman's health and strength.

KRAMER TO VOTERS OF 17TH DISTRICT

Directs Attention to His Candidacy For Congress.

Dear Reader—I take this means to ask your consideration of my candidacy for Congress at the primaries. Just a word as to myself. I was reared on the farm. Taught in the public schools for ten years. Am now practicing law. I graduated from the Ohio Northern university at Ada and the Ohio State university at Columbus. I was a member of the Constitutional convention and served two terms in the legislature in the last of which I was Democratic floor leader. I am a Lutheran and a Knight of Pythias. So much for that I can't see you all; the district is too large. I can't write numerous letters soliciting your

support. The government doesn't furnish me free postage and a clerk to mail them, as it does to Mr. Ashbrook, my opponent, at terrific cost to the people. I can't send you numerous garden seeds, mostly worthless. The government doesn't furnish me with them and a clerk to send them at still greater cost to the people. Neither can I send you bulletins and documents, most of which are not read. My opponent who is thus using the people's money is a candidate for his sixth term. Haven't the Democrats treated him well? You may have signed one of his numerous petitions. This peddling of petitions was another imposition upon the people. The law no longer provides for them, and the people are heartily sick of them. And your signature in no way binds you.

VOLUNTEERS AID IN FIRE FIGHTING; NO LOSS OF LIFE

(Associated Press Telegram)
Detroit, Aug. 4.—The efforts of hundreds of volunteer fire fighters, coupled with rain and a lull in the wind have brought about considerable improvement in the forest fire situation in northern lower Michigan, according to latest advices received here. Although a few small places report the flames still menacing, it is believed the fire fighters have gained sufficient control to assure the safety of all the towns and villages in the affected districts.

Estimates of the amount of damage done are at great variance, some placing it at as much as \$1,000,000. In the vicinity of Manvelona, Antrim county, 26,000 acres already have been swept over. It is declared.

Thus far no loss of life has been discovered.

Coroner Resumes Probe of Death of Lawyer's Wife

St. Joseph, Mo., Aug. 4.—A coroner's jury was to resume its inquiry here today into the murder of Mrs. Oscar D. McDaniel, wife of the prosecuting attorney of this county, who died July 15, after she had been clubbed in her home late the night before.

The inquest before its adjournment, went fully into the details of the case as it forms one of the most perplexing murder mysteries in the criminal history of Missouri.

Mr. McDaniel told the jury how he was called away from home shortly before midnight by a fake telephone call and upon returning home, engaged in a revolver duel with the man who is supposed to have beaten Mrs. McDaniel.

The character of the testimony presented today was not divulged.

Car of Dynamite In Path of Train Flagged in Time

(Associated Press Telegram)

The dynamite car was knocked on the trail as the flyer when a west-bound freight train was wrecked. The dynamite car was the only one of six cars leaving the rails that did not plunge over a steep embankment.

LET NERV-WORTH ATTACK YOUR HOT WEATHER ILLS

It's the Best of Up-Builders for Sweetening Mornings — Drayman's Statement Proves It.

If the heat prostrates your nerves, wrecks your digestion, slows down your liver, makes your nights sleepless, gives you the headache, in fact, weakens and depresses your entire system, take refuge in Nerv-Worth. Nothing in the world more quickly or thoroughly banishes the terrible hot-weather burdens. But by some strange chance Nerv-Worth should fail in your case, your dollar back at the T. J. Evans, Warden block drug store. Here's proof of Nerv-Worth's power over midsummer ills in the statement of Ira B. Grieves, the well known Zanesville drayman:
Nerv-Worth Co.:—For the last five months I have been suffering with nervousness. I could not sleep at night, I could not eat, had no appetite. Heavy sensation in my stomach. I took one bottle of Nerv-Worth and am much improved. I think it's a fine medicine for nervousness and stomach trouble.

CIGARETTE AND SUPPER LOOKED TONGUE OF YOUTHFUL TRAVELER; LONGING FOR "MA" PROMPTS TRIP

Tired and hungry, bearded with the soot of a 1000-mile ride, Archie Douglas, aged 12, almost an Oliver Twist in experience of the sunny side of life, sauntered into the B. & O. baggage room at 9:30 o'clock Thursday night, and asked for a match. The longing of his childish heart for his mother had led him to run away from his half-sister in Tampa, Florida, and he was enroute to Detroit, where he believes his mother to be. After being supplied with a match, he produced some "makins," rolled a cigarette with the deftness of a veteran, inhaled the smoke deep into his lungs, surveyed the premises with an air of complacency and in a rich southern dialect began to unravel his story.

It was the story of love for a mother, mixed with decision and adventures of the stout hearted lad that he is. Baggage Master Sam Chester gained the boy's confidence, and this achieved, Archie gave a full account of himself, and told a straight story. One week ago, he thinks it is about that long, he made up his mind to go to Detroit to see his mother. He went to the railroad yards of his native city, asked the tramsman whether he might take a ride with them, and having secured their permission, his tedious journey began. But taking into consideration the hardships of a nondescript, he did not fare badly. True, he was dirty, his clothes, once a different color, were black; his hair was disheveled and his face and hands had not been washed for days. These, however, were minor considerations. His stomach was well fed, and he was still quite chubby. His meals had not been served at regular intervals during his journey, and he
